THE STEPS + MY PROMPT FOR CLAUDE CODE

# How to use *Fable 5.2* in Claude Code today

Two commands to switch, which plan gets it and until when, what it costs, and the one prompt I tried first. Checked on Anthropic's own pages, 10 Nov 2026.

PRO: INCLUDED UNTIL 16 NOV · 2× OPUS PRICE

THE STEPS

# Switch to Fable in *two commands*

## 1 Update Claude Code

IN YOUR TERMINAL

```
claude update
claude --version
```

Fable 5.2 needs version **2.1.321 or later** (out on 9 Nov). Mine went from 2.1.198 to 2.1.322.

## 2 Switch the model

INSIDE CLAUDE CODE

```
/model fable
```

Type it inside Claude Code. Or start with `claude --model fable`. `/model opus` switches back to Opus 5.5, which stays the default.

SEE WHAT A SESSION USED

**/usage** shows the tokens and a cost worked out at API prices. On a Pro or Max plan that's an estimate, not your bill.

WHICH PLAN GETS IT

# On Pro, *the date* that matters

| | |
|---|---|
| FREE | no Fable |
| PRO + STANDARD TEAM | all Fable models included until **16 Nov 2026, 11:59 pm PT**: up to 50% of your weekly limits, plus one Fable limit reset. After that, Fable runs on usage credits, which you pay for. |
| MAX, ULTRA, PREMIUM SEATS | included, up to 50% of your weekly limits, plus 1–3 launch resets (by how long you've subscribed) that last until 8 Mar 2027 |

### A week of Fable models included in your plan

If you're on a Pro plan or a standard seat on a Team plan, all Fable models are included in your plan's weekly usage limits from launch on November 9, 2026 through November 16, 2026 at 11:59 pm PT. During that week, you can use up to 50% of your weekly usage limits on Fable models at no extra cost, the same way plans that include Fable models can. After you use that 50%, or once the week ends, Fable usage is billed to usage credits if you have them turned on.

From Anthropic's help page, support.claude.com. Highlight added by me.

AFTER THE 16TH, ON PRO

The **/model** picker shows "Requires usage credits" next to Fable and asks you to agree once before it uses them.

WHAT IT COSTS

# Fable costs *twice* as much as Opus

PER MILLION TOKENS (ANTHROPIC'S PRICE LIST)

| | |
|---|---|
| $8 Fable 5.2 · input | $40 Fable 5.2 · output |
| $4 Opus 5.5 · input | $20 Opus 5.5 · output |

MY TIP

**Use Fable for big, hard jobs.** Keep Opus for everyday work and switch back with **/model opus**. Anthropic says the same: start with Opus 5.5 for most coding, and use Fable for "the most ambitious, open-ended technical work".

MY FIRST FABLE JOB, AT API PRICES

*$3.70*

One prompt, 8.4 minutes, a whole website (the next section). Claude Code's own estimate at list prices, not my plan bill.

FIRST THING TO TRY

# My prompt: a *whole studio website*

COPY THIS PROMPT

```
Build a website for my design studio, Halfmoon Studio. We're a
3-person studio in Pune that designs brands and websites for
small businesses.

One page with:
- a hero with our name and one line about what we do
- 6 selected projects in a grid (make the project images yourself
with CSS or SVG, no stock photos)
- our services, with prices starting at ₹25,000
- a short about section with the team
- a contact form

Make it look like a real studio's website: a strong layout,
smooth scroll animations, and real copy (no lorem ipsum). It must
work on a phone too.

Use plain HTML, CSS and JavaScript in this folder. No build step
and no libraries, except Google Fonts.
When it's done, open index.html in my browser.
```

MAKE IT YOURS

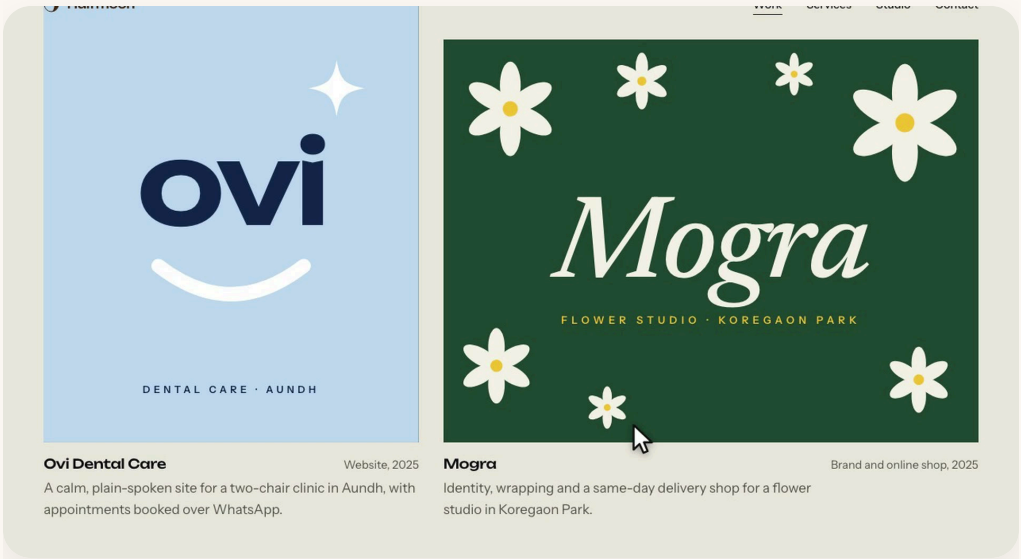

Start Claude Code in an empty folder, type **/model fable**, paste the prompt. Swap in your own studio, city and prices.

WHAT I GOT

# Right on the *first try*

The hero Fable 5.2 built from that one prompt.

It drew the artwork for all six projects itself.

| | |
|---|---|
| TIME | 8.4 minutes, one prompt |
| MADE | moon hero, six projects, services from ₹25,000, about, contact form |

Halfmoon Studio is made up: a test brief, not a real client.

CHECKED 10 NOV 2026

# Where these facts *come from*

SOURCES

1. Fable and Mythos 5.2 launch post `anthropic.com`
   launch 9 Nov · Opus for most work, Fable for the hardest
2. Fable launch offers (the 16 Nov date) `support.claude.com`
3. Fable models on your plan `support.claude.com`
4. Claude Fable page `anthropic.com`
5. Claude Code model settings (/model fable) `code.claude.com`
6. Claude Code v2.1.321 release `github.com`
7. API pricing `platform.claude.com`
   $8 / $40 vs $4 / $20
8. Claude Code costs (/usage) `code.claude.com`

# Now give it a *hard job*

Big jobs on Fable, everyday work on Opus.
