THE SETUP LINK + HOW TO CANCEL IN TIME

Unlimited *AI video* inside Claude, for 72 hours

Higgsfield's trial for new users: how to add it to Claude, the prompt I tried, and the catch before it renews. Checked on Higgsfield's own pages, 10 Nov 2026.

NEW HIGGSFIELD USERS · 72 HOURS · THEN ULTRA

THE OFFER

What you *actually* get

WHAT	"Unlimited generations on frontier models via Claude MCP for new users" (Higgsfield's homepage)
WHO	new Higgsfield users only
HOW LONG	72 hours, counted from when you start. There's no shared end date.
THEN	it renews into Higgsfield Ultra, with 40% off the first month, unless you cancel
ULTRA	$129 a month, or $99 a month billed yearly, before tax (pricing)

WHERE THE TERMS COME FROM

The "unlimited for new users" line is on higgsfield.ai. The 72 hours and the renewal into Ultra come from Higgsfield's posts on X. No page says which models are included or whether you need a card, so read the offer on Higgsfield's page before you start.

THE SETUP LINK

Add *Higgsfield* to Claude

1 Open the connectors

In Claude: **Customize** → **Connectors** → **Add** → **Custom**. Free Claude plans can add one custom connector.

2 Paste the connector URL

Name it Higgsfield and paste this:

CONNECTOR URL

```
https://mcp.higgsfield.ai/mcp
```

3 Sign in and start the trial

Sign in to Higgsfield when it asks. The 72 hours start now, so note the time.

4 Type one idea

In a new chat, describe the video you want. Claude sends it to Higgsfield's models: the video comes from Higgsfield, not from Claude.

FIRST THING TO TRY

My *coffee-cup* ad

COPY THIS PROMPT

A 10-second cinematic ad: a handmade ceramic coffee cup on a wet street at night, rain falling, neon reflections in the puddles, steam rising from the cup, slow push-in, shallow depth of field, moody blue and amber light.

A frame from my result. AI-made by Kling 3.0 on Higgsfield.

MODEL	Kling 3.0, through my Higgsfield connector
GOT	a 10-second video, 720 × 1280, in a few minutes
COST	17.5 Higgsfield credits: my own paid credits, not the trial

HOW TO CANCEL IN TIME

Don't let it turn into *Ultra*

THE CLOCK

72 hours

From when you start the trial. After that it renews into Ultra ($129 a month, 40% off the first month) unless you cancel.

- **Set a phone reminder** the moment you start, for well before the 72 hours end.
- **Before the 72 hours are up,** open your plan in your Higgsfield account and on higgsfield.ai/pricing, and cancel the trial if you don't want Ultra.
- **Check your plan page again** after you cancel, so you know it won't renew.

GOOD TO KNOW

Higgsfield's pages don't spell out the cancel steps, so look at your plan page early, not in the last hour.
