ALL 10 PROMPTS + THE FACE-LOCK LINE

Your *10-look* AI photoshoot from one photo

Made in Google Flow — the exact prompt I used for every look, and the one line that keeps your face the same.

BEFORE YOU START

What you *need*

- **A Google account** — Flow is for ages 18+ and works in India.
- **Google Flow** — a website, nothing to install: labs.google/flow. A laptop is easiest.
- **One clear photo of you** — the rules are just below.
- **Credits** — my 10 photos used none of mine. Everyone also gets 50 free Flow credits a day.

HOW IT WORKS

You upload one photo, then ask Flow's Agent for **one look at a time** — a place, an outfit and a pose — with your photo attached every time. Ten prompts, ten looks.

THE STEPS

0 **Pick the right photo** — the face starts here

1 **Upload it** to a new Flow project

2 **Set images to 9:16** — vertical, made for Reels

3 **Ask for one look at a time** — the 10 prompts below

4 **Download each look in 2K** — sharp enough for full screen

STEP 0

Pick the *right photo*

The #1 complaint on this trend is "my face changed". Most of the time, the photo is why.

USE A PHOTO THAT IS	
FRONT-FACING	both eyes visible, looking at the camera
SHARP, WELL LIT	daylight from a window is perfect
UNFILTERED	no beauty mode, no smoothing, no stickers
JUST YOU	never other people's photos, and no children
WAIST-UP	or full body, on a plain wall — the looks need your body too
FACE CLEAR	no sunglasses, no cap covering your face

WHY FACES DRIFT

A filtered selfie gives Flow a face that isn't quite yours, a side angle hides half of it, and a tiny low-res photo leaves it guessing. Start sharp and straight-on, and the face-lock line does the rest.

1 Upload your photo

Open labs.google/flow → **New project** → drop your photo into the project.

2 Set images to 9:16

In the Agent chat, open the **settings** (the sliders icon) → **Image generation default** → **9:16** → Save. Every look now comes out vertical.

3 Attach your photo to every prompt

Before each prompt: **+** → pick your photo → **Add to prompt**. One look per message — when I asked for all 10 at once, Flow failed half of them and the faces drifted.

THE FIX NOBODY SHOWS

The *face-lock* line

Every prompt ends with this line. It's why all 10 looks still look like me.

ADD THIS TO THE END OF EVERY PROMPT

```
Use my uploaded photo as the only reference for this man: keep his exact face, hairstyle, beard, round glasses, skin tone and body shape. Do not beautify, slim or change him. Photorealistic vertical 9:16 photo, natural skin texture, 35mm lens. No text.
```

MAKE IT YOURS

NOT A MAN?	write **woman** or **person** instead of man, and *her* or *their* instead of his
NO GLASSES OR BEARD?	delete them from the line — describe what's really on your face
TRADITIONAL OUTFIT	describe it in the look prompt — *a dark green silk saree with a gold border and jhumkas*
YOUR BUSINESS	put your product in your hand, your shop behind you, your uniform as the outfit
